Winnebago County Community Mental Health Board Releases Public Participation Survey

ROCKFORD, IL — Winnebago County Community Mental Health Board (WCCMHB) has released a Public Participation Survey. The community input provided through the survey will inform the Board's decisions regarding mental health and substance abuse care in the community, along with its three-year strategic plan and environmental scan. The survey is available in English and Spanish at www.facebook.com/wccmh, <https://www.instagram.com/wccmh>, or by emailing info@mentalhealth.wincoil.us to request a link to the survey.

Community input is critical, and although the COVID-19 pandemic has forced them to turn virtual, the Board remains steadfast in its commitment to engaging the lived experience from each community member. The Board is looking forward to seeing results and encourages every community member to complete the survey as well as to share the survey with other community members.
